Mapping Educational Innovation Hubs Network in the Netherlands 2019-2020

LDE CEL - Caitlin Utama
About ONING

The Education and Innovation Network Groningen (#ONING) is a network of teachers, which exists both out of innovative teachers and supporting professionals, as of people with an interest in innovation. These teachers and professionals are devoted to the development, use, and research of new teaching methods within their own working environment. Generally, these professionals are located in the city of Groningen. #ONING is a cooperation between the Hanzehogeschool Groningen and University of Groningen. During the meetings of #ONING teachers exchange tips and experiences regarding how they resolved problems by means of innovation. Hitherto, there have been meeting on assessment and feedback, taking exams on computers, and staff development. On YouTube you will find summaries of these meetings.

Projects

- Digital examination
- Massive Open Online Courses
- Docentprofessionalising
- Streaming video and videoconferencing
- Flipped classroom
- Nestorsupport

About TLC

The innovation and professionalisation of teaching and the sharing of knowledge are among our core values. The central Teaching & Learning Centre (TLC) works together with the faculty TLCs to accomplish initiatives in this area. The central TLC focuses on developing overarching activities and facilitating interfaculty exchanges and cooperation with regard to innovation, knowledge sharing and professionalisation.

Projects

Objectives of the central TLC
- Educational reform across the faculties: the central TLC links subjects, themes and projects to improve educational development and innovation in line with the UvA’s vision on teaching and learning as well as its mission and in keeping with the requirements of the various faculties.
- Teaching staff development: the central TLC is responsible for assessing the needs for training and professionalisation within the faculties, and organises broad programmes for training and professionalisation that are accessible to the entire UvA.
- Knowledge development: the central TLC pools knowledge from the various faculty projects and brings together various experiential experts.
- Knowledge exchange: the central TLC connects the various faculties and focuses on community-building.
- Connection with the outside world: the central TLC represents the UvA in the outside world, where it gathers knowledge for dissemination throughout the UvA.

About LEARN!

LEARN! is an interdisciplinary research institute on learning in an institutional and societal context. We bring together colleagues from the behavioural, social, medical and educational sciences to understand:

- The Micro context of learning of children and adults (including teachers, principals)
- The Meso context of learning, such as the classroom, school organisation, day-care centers, work-based settings or adult colleges
- The Macro context of learning; e.g. the coordination and governance of learning by school boards, local and national governance (e.g. through marketization, network governance, hierarchical coordination), including the cultural and institutional context of learning (norms, values, social blueprint; legal, financial and policy context).

Projects

- Child rearing
- Educational Neuroscience
- Educational governance, identity and diversity
- Learning Sciences
- Motivation for lifelong learning

LEARN! onderzoekers werken samen met internationale onderzoek gemeenschappen zoals: STEP AERA, RDC professionele ontwikkeling van lerarenopleiders ATEE (TTE) en Het Uitvoerend Comite van EARLI (TTE).

Prof Marilyn Fleer, Stichting Leerstoel Early Childhood Education, Monash University in Melbourne, Australië, Universiteit van Melbourne en Monash zelfstudie onderzoek.
GI4all Europese IT-netwerk met GIS onderzoeksinstuut van de Universiteit van Salzburg
De Internationale Mind Brain Learning Society (IMBES), in het bijzonder in het comite voor de ontwikkeling van educatieve neurowetenschappen, en de stuurgroep Hersenen, leren en onderwijs op instigatie van de OESO (Centrum voor Onderzoek van Onderwijs en Innovatie, CERI).
Samenwerking op het gebied van neuroimaging van cognitieve functies met het Instituut voor Psychiatrie, Kings College in Londen, en het Instituut voor Neurologie, University College London, die beide zijn internationaal erkend voor hun uitmuntendheid in functionele neuroimaging.
Philosophy of Education Society of Great Britain (PESGB), Association for Moral Education (AME) en Religious Education Association (REA).
Prof Shihui Han van de afdeling Psychologie, Universiteit van Peking, China op het gebied van culturele neurowetenschappen.
De Neurowetenschappen en onderwijs onderzoeksgroep van de Universiteit van Bristol (prof. P. Howard Jones). 'Leren centra' in Bristol UK, Cambridge UK en Ulm Duitsland en partners in de Scandinavische landen.
Prof. dr. Aharon Aviram, Ministerie van Onderwijs, Ben-Gurion Universiteit. Israël.
About CELT

Welcome to the website of the Centre of Expertise in Learning and Teaching (CELT). We support educational managers and teaching staff with designing, implementing, conducting and evaluating lectures, projects, modules, or programmes. For this purpose we provide training programmes and workshops (for example BKO/UTQ); we advise or coach individuals or groups; we develop concrete materials or tools.

CELT works closely together with the team Technology Enhanced Learning and Teaching (TEL). CELT is part of the Centre for Educational Support (CES) of the University of Twente.

Projects

- Integration
- Team based learning
- Guiding students during their thesis process
- Flipped classroom
- Teaching multicultural student groups
- Blended learning
- Learning research skills as threshold concepts

Fellows

No, but CELT has 13 student Fellows

About TLL

The Teaching & Learning Lab (TLL) is the education lab of the Utrecht University for teachers, students, educational researchers and companies. It is the place to explore together new possibilities in education, to develop and to test in practice. The users of the TLL improve together their own education and inspire colleagues with new ideas. The TLL is in all senses a place for educational innovation and consists of two educational test spaces, a studio and owns a 3-D printer. Often the lab organizes workshops for inspiration and sharing new insights.

Projects

- Studying mathematics on learning tables
- The ideal setup to let students work together
- Active Learning Classroom: from pilot to new university classroom
- Knowledge clips Master's course Communicating Science with the Public
- Reciprocal peer tutoring: letting students learn from each other
- Letting students work on their skills in the TLL
- Letting students think out-of-the-box
- From NLT assignment to national robotics project: Leaphy
- Scientist advisor
- Techniques of futuring
- Mathematical knowledge clips

About CAT

The Centre for Academic Teaching is a network organisation of Utrecht University. The Centre brings together all the partners and programmes that work within the university for the continuous improvement of education. Teachers can come here for information, knowledge sharing, support and training aimed at their own development and the renewal of their education. The Centre focuses on three pillars that all contribute to the improvement of education: teacher development, educational innovation and Educational Scholarship.

About Centre for Innovation

We are a group of interdisciplinary researchers, designers and developers driven by creating impact in how people learn, work, and live. Our mission is to put people first in innovation. We explore new methods and technologies that shape the future of learning, whether at Leiden University or a local NGO. Our designers, researchers and makers work together with teachers, researchers, and students to build exciting, innovative products, projects, and prototypes.

About CLI

As a lecturer or student you might have ideas to innovate or improve your education. How can you ensure your ideas will be developed and realised? The Community for Learning & Innovation (CLI) is eager to help you out. The CLI is a support and knowledge network. Together with the faculty-based Learning & Innovation teams we can offer you the following:

- **Innovation projects**: receive support and facilities to realise your idea
- **CLI Fellowships**: 0.2 FTE will be financed for a project focused on strengthening or innovating our education
- **Lecturer training**: work on improving your own education during a training or short course
- **Student projects**: receive advice, practical and/or financial support for your Students-for-Students initiative
- **Erasmus Education Lab**: organise brainstorms or join an event in an inspiring environment

Projects

To be added
